**From Policy to Practice:
CPAS’ Journey with Reputation Governance**
Sarann Buckby (Jersey Road) and Jon Scamman (CPAS)

Reputation governance is not just theory, it’s a lived culture. In this interactive Q&A, Jon Scamman (CEO, CPAS) will share how CPAS has integrated reputation governance into the heart of its ministry, drawing on over a century of running holidays for young people. We’ll explore lessons learned in creating a culture of openness, responding to criticism with humility, and placing people at the centre of safeguarding and trust. The conversation will highlight practical steps any Christian organisation can take to steward reputation well, keeping mission healthy and sustainable.

Equipping young people to share Christ
Jubi da Silva (Christianity Explored)

In the last 7 years, the number of young people flocking to church in the UK has [quadrupled](#)*. In God's providence, Christianity Explored Ministries has launched VOX -- a 4-session youth resource to help 11-18s discover the good news of Jesus in the gospel of Luke. In this workshop, you will sample a session yourself and learn how to help young people return to the basics of life and the Christian faith. There will be time for Q&A and an invitation to long-term training with us. (*The Quiet Revival, Bible Society)

Getting the right people on the Board of Trustees and working together
Lynn Cadman (Edward Connor Solicitors)

A practical session to help reflect on what – and who – your board needs to flourish and how to bring out the best in one another. This includes identifying gaps in gifting, experience and other qualities on your board, finding potential trustees with what you’re looking for, and bringing your new board together.

Growing and Developing Schools Ministry – Partnerships - *(Collaborative Workshop: Part 2 of 2)*
Rob Sheffield (Heatree), Anna Shaw (CPAS)

What could schools’ ministry look like if we worked in deeper partnership - with churches, schools, organisations, and each other? Building on insights from Part 1, this session focuses on collaboration: exploring creative models of partnership, testing new ideas, and learning from one another’s experience. Expect lively discussion, practical imagination, and a shared vision for growing together. Together, Rob and Anna will guide participants through a dynamic and collaborative process of exploring how schools’ ministry can grow, evolve, and flourish through innovation and partnership.

Maximising your Fundraising Potential

We'll be exploring different income streams, practical ways to grow them, and how to link them together into a strategy that builds sustainability and releases vision.

Recruitment and Management of Volunteers

Rachel Duggan (Rock UK) & Paul Wenham (Ashburnham Place)

Volunteers are the lifeblood of many organisations, but recruiting, supporting, and leading them well can be challenging. This seminar will cover practical approaches to volunteer management, including navigating visa applications, and offers a space to share experiences and discuss what works (and what doesn't). Come ready to engage in open conversation, learn from others, and take away ideas to strengthen your organisation's volunteer programme.

A Passion for People, Planet and Places

Andy Lester (A Rocha)

Jesus had a passion for the land, for community and for change. We live in a season where climate change and nature loss has become a stark reality and where communities are increasingly fragmented and polarised. Into that space we can make a huge difference as a network. Come and find out how and add your own creativity to what has already been achieved. This seminar is all about hope in a time of crisis and modelling a Christ-centred response to the challenges we face.

Building a Culture of Reputation Governance

Sarann Buckby (Jersey Road)

A good name is more valuable than riches (Proverbs 22), but it only takes a moment for trust to be lost. In this session, Jersey Road will unpack what reputation governance really means for Christian organisations today. We'll explore how to embed healthy practices across leadership and frontline teams, prepare for crises before they happen, and ensure your mission is not derailed by reputational threats. With practical insights and examples, we'll show how reputation governance can become part of your organisation's DNA — strengthening trust, resilience, and witness.

Top tips for governing your Christian charity well

Lynn Cadman (Edward Connor Solicitors)

Relationships, behaviours and dynamics in the board room can have a bigger impact on our ability to lead well than structures, systems and processes. But what does good governance look like, particularly in terms of relationships within the board and between the board and the executive? Join this session looking at the characteristics of effective charity boards and tools and top tips to work well as individuals and as a team - including with your senior management
